PROJECTS

- **Personal website**

Technologies : JavaScript, HTML, CSS, Bootstrap and Parallex effect
Skills :Innovation & Creativity, Hard Working, Fast Learning
References : W3Scools web site, the MDN Web Docs site, and YouTube
Link : https://shashi2024.github.io/sashinisewwandi/

- **Year 1 Semester 2 Project - Online Driving License System**

Technologies : HTML, CSS, JavaScript, PHP, and SQL
Skills : Leadership, Team Engagement, Innovation & Creativity
References : W3Scools web site, the MDN Web Docs site, and YouTube
Link : https://github.com/shashi2024/Y1S2project

- **Year 2 Semester 2 Project - Restaurant Management (Ongoing)**

Technologies : HTML, CSS, JavaScript, React, MongoDB, NodeJS, Express, Tailwind, Postman, GIT, Rest API & more
Skills : Leadership, Team Engagement, Innovation & Creativity
References : GIT Copilot, ChatGPT, Online Lectures & YouTube
Link : https://github.com/shashi2024/Y2S2project

- **Forward - Stress & Study management app for learners**

Technologies : Android Studio, Kotlin, Figma
Skills : Innovation & Creativity, Fast Learning
References : GIT Copilot, ChatGPT, Online Lectures & YouTube
Link : https://github.com/shashi2024/myapp

- **PuzzlePluz - Gaming App (Ongoing)**

Technologies : Android Studio, Kotlin, Figma
Skills : Innovation & Creativity, Fast Learning
References : GIT Copilot, ChatGPT, Online Lectures & YouTube
Link : https://github.com/shashi2024/PuzzlePluz

- **Image Detection Machine Learning Based Project**

I do this as a mini-project for the Machine Learning Course. To do this, I used the Keras CIFAR 10 data set, and it gives the correct image type when we give the picture.

- **Voice Emotion Recognition Machine Learning Based Project**

I built this as my final project in the machine learning course. I used the Kaggle Ravdess voice emotion dataset for this. I refer you to YouTube videos for building this. This is a small ML project, but this is the first step of my AI journey.
